## Recipe for Suburban Surprise:

Take one deeply depressed housewife.

Add an unexpected windfall.

Carefully fold in one very handsome, very clever charmer.

Separate and discard one totally self-centered, slightly abusive husband.

Place all remaining ingredients into red-hot, shiny red convertible cruising on Route 66 and wait to see what happens!

**“As I followed the misadventures of Barbie, a 40-something underachiever, I laughed out loud in places. In others I found myself misty-eyed, totally sympathizing with the character. Funny, poignant, a little desperate in places, this book is a roller coaster of a read! Can’t wait for Ms. Sutton’s next effort!”**
