**ARCHEBOOKS AND MY WRITER BUDDY ANNOUNCE THE FINALISTS FOR THE  
2004 NOVEL WRITING CONTEST!**

Las Vegas, NV – 7/15/2004. ArcheBooks Publishing ([www.archebooks.com](http://www.archebooks.com)) and *My Writer Buddy* ([www.writerbuddy.com](http://www.writerbuddy.com)) an online group for aspiring writers; announced today the Finalists in three categories for their **2004 NOVEL WRITING CONTEST**. The Finalists are:

**Fantasy/Sci-Fi/Horror Category:**      **Warlock by Scott Morgan**  
**Mystery-Suspense Category:**      **Thrips by L. R. Farley**  
**Romance Category:**      **If You Only Knew by Laura E. Reagan**

The winner of an ArcheBooks Publishing Contract will be announced on July 23, 2004. The judging committees of *My Writer Buddy* selected the finalists, with ArcheBooks now charged with determining the winner(s). The winning author's novel will be published in cloth-bound hardcover and have full access to ArcheBooks marketing and distribution services.

Robert Gelin, publisher of ArcheBooks Publishing said, "We're now down to the best of the best. The judging committees have universally expressed how difficult their decisions have been, and how excellent the submissions have been. In less than a week a previously unpublished author won't be able to call themselves that any longer."

Denise Williams, owner of the My Writer Buddy website added, "We're extremely excited about seeing our authors' goals and dreams achieved. That's why our group was formed, and we're already looking forward to making preparations for the 2005 Novel Writing Contest in partnership with ArcheBooks."

ArcheBooks was formed in September 2003, as a wholly owned subsidiary of Gelin & Wolf, Inc. G & W's business model was developed with the knowledge that the Internet and electronic messaging would continue to expand the creative boundaries previously assigned to traditional media publication. The principles, Bob Gelin and Ralph Wolf, continue their revolutionary approach towards business development and their belief in the continuous evolving role the Internet plays in future business models.
